After School Tutoring
Time: Monday through Thursday 2:30 -4:00 pm
After school tutoring lab is held in a math teacher’s classroom almost every day of the week. Usually there is a different math teacher each day, possibly even the teacher your student has for math. Chromebooks are available each day in said teacher’s classroom. Schedule will be posted on the website, handed out to students and posted in the halls every 2 months.

Advisory Tutoring
Time: Monday, Wednesday, Thursday during Adv. 9:00am-9:40 am
Advisory tutoring is offered by Coach Brown. Students are required to ask their math teacher for a ticket to the tutoring but the same ticket can be used all year long. Coach Brown has taught math for many years and can helped with all levels, but specializes in Secondary Math 1 and 2.

Engagement time
Time: 7:10 am - 7:40 am Every day except Tuesday
Engagement time is like office hours for your student to come see their teacher. This is a resource that is not specific to math but in fact is available to your student for each of their teachers in the teacher’s classroom. Some teachers are also available at advisory as long as you schedule the meeting in advance.

Tutoring List
Time: Arranged with chosen tutor.
At the beginning of the year, a list of upper level math students who offer tutoring is compiled and given upon request. Students can ask their math teacher for a copy or parents can contact the school or math department head; Rebecca Waters at Rebecca.waters@canyonsdistrict.org.
Math Lab (Advance)
Time: Class period during school
This is a special course that is to be taken along with the student’s regular math class. It provides additional support specific to those taking concurrent or AP math courses; Math 1030, Math 1040, Math 1050, Math 1060, AP stats, and AP Calc. It is designed to be an office hours type course, in which student can receive help in their current class from an advanced math teacher and allows students in the same course to form study groups.

Math Lab (Regular)
Time: Class period during school
This is a special course that is to be taken along with the student’s regular math class. It provides additional support in foundational math procedures. It is NOT designed to be an office hours type course, but rather an additional math class to review skills needed as a prerequisite to the high school courses. Students will need to be approved for this course by the counselor and teacher of the regular secondary math class.

** Calculators
Graphing Calculators can be rented for $20 for the year. Please see the main office for details.

ACT Prep Class
Time: Every day after school starting in December.
In preparation for the ACT, Mr. Keller offers a free ACT math prep course. Every Monday through Thursday from 2:30-3:30, students will review both math concepts and test taking strategies in preparation for the ACT offered in February. More information will be available as the dates approach.

Math Club
Math club is held on Monday’s after school in Ms. Sheldon’s room. Joining math club is a great way to get a team of people to help you with your class. However, math club will also offer tutoring for non-members on every third Monday of the month. Schedule can be received from Ms. Sheldon at Bryanna.sheldon@canyonsdistrict.org

National Honors Society
National Honors Society will be offering tutoring in all subjects every 1st and 3rd Tuesday from 2:45 to 3:45 and every day last week of quarter. See Cindy Pugmire for more details or email at Cynthia.pugmire@canyonsdistrict.org

If you have any questions about any of the math resources offered at Alta High School, please contact Rebecca Waters at Rebecca.waters@canyonsdistrict.org
